Subhash Bhatnagar. My oldest recently announced that he hates math, but this kid does things in his spare time like time his Hot Wheels cars racing through a homemade track and figuring out how many feet per second they were traveling.

## **Saint Augustines Anti-Pelagian Works**

Building on the achievements of his immediate predecessors, Filippo Brunelleschi and Michelozzo di Bartolomeo, he reinterpreted anew the architecture of antiquity and introduced compositional formulae that have remained central to classical design ever. There is good reason to doubt that students in professional schools are at a stage of their intellectual development where they would benefit from a major emphasis on the role of central ideas in top management responsibilities.
